Call +353 (0) 1 533 7810 for more information.

The Central Bank of Ireland (CBI) is responsible for supervising Gateway Fund Services Limited in relation to this Key Information Document. Gateway Fund Services Limited is authorised in Ireland and regulated by the Central Bank of Ireland (CBI).

This Key Information Document date is 17 November 2025.

What is this product?

- Type: The product is a Sub-Fund of an ICAV (Irish Collective Asset-Management Vehicle).
- Term: This product has no specific maturity date.

In certain circumstances, as described in the prospectus, the Sub-Fund may be unilaterally terminated or merged with another product following written notice to unitholders subject to compliance with the prospectus and applicable regulation.

Objectives

The objective is to outperform the daily capitalised ESTR (Euro Short-Term Rate) by 2.45%, over the minimum recommended investment period of three years and after the deduction of all fees, including management and operating fees. ESTR is the reference rate for the interbank market in the euro zone. It is calculated by the European Central Bank. There can be no assurance that the Sub-Fund will achieve its investment objective.

The Sub-Fund is considered to be actively managed in reference to the Benchmark by virtue of the fact that (i) it seeks to outperform the Relevant Share Class Benchmark and (ii) the performance fees payable to the Investment Manager are calculated based on the performance of the Sub-Fund against the Relevant Share Class Benchmark. The Investment Manager, H2O AM Europe, is not in any way constrained by the Benchmark in its portfolio positioning. The investment strategy does not restrict the extent to which the Sub-Fund's holdings may deviate from the Benchmark and deviations may be significant. This is likely to increase the extent to which the Sub-Fund can outperform or underperform the Relevant Share Class Benchmark.

The investment strategy is focused on absolute performance, combining strategic and tactical positions and arbitrages on global debt securities issued by governments, supranationals and corporates, which are listed on Recognised Exchanges, Equities and currency markets. Strategic positions reflect the Investment Manager's long-term, fundamental views to capture broad macroeconomic or structural trends in global debt, equity, or currency markets. Tactical positions are shorter-term, opportunistic trades that aim to exploit temporary market inefficiencies or events, adding flexibility to the strategy. Arbitrages involve relative value opportunities that seek to benefit from pricing discrepancies on all asset classes.

The Sub-Fund may invest substantially in financial derivative instruments (FDIs), used for both investment and efficient portfolio management, including futures, options, swaps, contracts for difference, forwards and credit derivatives. During certain market conditions, the Sub-Fund may also hold significant cash or short-term money market instruments.

The Sub-Fund is a full discretionary portfolio. The Sub-Fund does not seek thematic exposure to the AI (Artificial Intelligence) sector, rather Generative AI tools are used to support the existing long-standing investment process of the Investment Manager, by aiding the review of external research and facilitating team introspection. No trades or portfolio decisions are generated directly by Generative AI.

For full investment objective and policy information please refer to the Sub-Fund Supplement.

You may request the sale of your product on a daily basis. However, exceptionally, this could be restricted in certain circumstances. You will find additional information in the How long should I hold it and can I take my money out early? section. Dividends are not intended to be distributed. Any income derived from the product is reinvested.

Intended retail investor

The Generative Global Macro Fund is appropriate for Retail Investors, Basic, Informed and Advanced. The product is aimed at investors (i) with basic knowledge of and limited to no experience in investing in this type of product, (ii) willing to accept a high risk of loss of their investment and (iii) with the objective of increasing their capital during at least the recommended holding period. The Sub-Fund is appropriate for investors who are seeking long-term returns. The Sub-Fund may not be appropriate for investors that plan to withdraw their money within 3 years. Investors should be aware that 100% of their capital is at risk and investment is not appropriate for investors who seek a capital guarantee or can bear no capital loss including minor losses. The Sub-Fund is not designed to preserve or limit capital loss.

Additional product information

- Product depositary: CACEIS Bank, Ireland Branch

Further information about the product, copies of the prospectus, the latest annual report, any subsequent half-yearly report and the latest prices of shares can be obtained free of charge in English at www.gatewayfundservices.com or at the registered office of Gateway Fund Services Limited.

This Key Information Document describes a Sub-Fund of an ICAV. The prospectus and the periodic reports are prepared for the entire ICAV named at the beginning of the Key Information Document.

The assets and liabilities of each Sub-Fund are legally segregated from those of other Sub-Funds. Unitholders of a certain Sub-Fund may not be affected by events relating to any other Sub-Fund.

- Exchange of shares: You do not have the right to exchange your shares in this Sub-Fund into shares of another Sub-Fund of the ICAV.

What are the risks and what could I get in return?

Risk indicator

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This classification rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Other risks materially relevant to the product not included in the summary risk indicator: performances of this product might be negatively impacted by liquidity risk, credit risk, financial derivatives instruments risk and counterparty risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 3 years

Example investment: EUR 10,000

If you exit after 1 year

If you exit after 3 years

Scenarios

Scenarios		If you exit after 1 year	If you exit after 3 years
Minimum		There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	What you might get back after costs Average return each year	6,220 EUR -37.8 %	6,780 EUR -12.2 %
Unfavourable	What you might get back after costs Average return each year	8,380 EUR -16.2 %	9,070 EUR(*) -3.2 %
Moderate	What you might get back after costs Average return each year	10,260 EUR 2.6 %	10,980 EUR(*) 3.2 %
Favourable	What you might get back after costs Average return each year	11,980 EUR 19.8 %	13,840 EUR(*) 11.4 %

(*) The unfavourable scenario occurred for an investment (calculated on the basis of historical performances of the product ESTR Capitalised daily + 2.45%) between July 2019 and July 2022. The moderate scenario occurred for an investment (calculated on the basis of historical performances of the product ESTR Capitalised daily + 2.45%) between December 2020 and December 2023. The favourable scenario occurred for an investment (calculated on the basis of historical performances of the product ESTR Capitalised daily + 2.45%) between July 2022 and July 2025.

What happens if Gateway Fund Services Limited is unable to pay out?

The assets of the product are held in safekeeping by CACEIS Bank, Ireland Branch (the "Depository"). In the event of the insolvency of Gateway Fund Services Limited (the "Management Company"), the product's assets in the safekeeping of the Depository will not be affected. However, in the event of the Depository's insolvency, or someone acting on its behalf, the product may suffer a financial loss. This risk is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the product. The Depository will also be liable to the product and the investors for its negligence or intentional failure to properly fulfill its obligations under the UCITS regulations (subject to certain limitations).

There is no investor compensation or guarantee scheme in the case of default of the Management Company or the Depository.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	328 EUR	636 EUR
Annual cost impact (*)	3.3 %	2.1 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 5.2 % before costs and 3.2 % after costs.

These figures include the maximum distribution fee that the person selling you the product may charge (2.0 % of amount invested / 200 EUR). This person will inform you of the actual distribution fee.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
----------------------------------	--	--------------------------

Entry costs	2.0 % of the amount you pay in when entering this investment. This includes distribution costs of 2.0 % of amount invested / 200 EUR. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to 200 EUR
Exit costs	We do not charge an exit fee for this product.	None

Ongoing costs taken each year

Management fees and other administrative or operating costs	0.8 % of the value of your investment per year. As the share class has not had a full year of performance, this figure is an estimated figure. This figure may vary from year to year.	74 EUR
Transaction costs	0.4 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	39 EUR

Incidental costs taken under specific conditions

Performance fees	10.0 % of the performance above the reference index + 2.45 %. 0.2 % of the value of your investment per year. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years. Investors should note that performance fees may be charged even when the performance of the product is negative, notably if the performance of the benchmark is lower than the performance of the product.	15 EUR
------------------	---	--------

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

The recommended holding period corresponds to the period of time during which you must remain invested in the product to obtain a potential return while minimizing the risk of losses. This duration was defined by taking into account the risk-reward profile, invested assets, management objective and investment strategy of the product.

You can request the sale of your product on a daily basis, however the ICAV Directors may decide (in order to protect the interests of the Sub-Fund's unitholders) to limit redemption activity on a given day if redemptions exceed a threshold of 10% of the total number of shares of the Sub-Fund in issue on that day or 10% or more of the Net Asset Value of the Sub-Fund. Should a limit be imposed, any redemption activity in excess of one of the above mentioned thresholds on such dealing day shall be reduced pro rata and Shares which are not redeemed by reason of such reduction shall be treated as if a request for redemption had been made in respect of each subsequent dealing day until all shares to which the original request related have been redeemed. You may receive less than expected if you cash in earlier than the recommended holding period. The recommended holding period is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels.

Redemption requests are received daily by 11.30 a.m. at the latest and are executed daily.

How can I complain?

Should you wish to complain about the product, the conduct of Gateway Fund Services Limited or the person advising on or selling the product, details of our complaints handling process are available at <https://www.gatewayfundservices.com/legalnotices>. In addition, you can submit your complaints at our Registered Office, 56 Fitzwilliam Square, Dublin 2, Ireland, D02 X224 or via e-mail at gateway@gfsmanco.com.
