managed by H2O Asset Management LLP, that the indicative average leverage level for the UCITS, which is currently 1, will rise to 3.

This not only aggregates the gross commitment generated by the long and short positions of financial contracts on the interest rate markets, but also that generated by the currency positions.

The increase in the indicative leverage level is a result of the increase in the implemented rate strategies.

The new Key Investor Information Documents (KIIDs) and the new Prospectus are available:

- From the registered office of H2O AM LLP 10 Old Burlington St, Mayfair, London W1S 3 AG, United Kingdom.

They will be sent to you within eight business days of receipt of a written request.

that, as a result of the changes to the H2O Adagio Fund, the Master Fund for the H2O Adagio Feeder** Sub-fund, the Fund's prospectus is updated to include the following changes: Increase in the maximum leverage level and change to the management objective of the M* unit (in which the feeder Sub-fund invests).

**This unit/share class is not registered in the Netherlands.*

***This sub fund is not registered in the Netherlands.*

1. Increase in the Master Fund's indicative average leverage level

The indicative average leverage level for the Master UCITS, which is currently 1, will rise to 6.

However, this increase in the indicative average leverage level does not entail any readjustment to the increase in the overall risk.

2. Change to the management objective of the M* unit of the H2O ADAGIO Fund

The management objective of the M* unit of the H2O Adagio Fund, in which the H2O Adagio Feeder** Sub-fund invests, which currently consists of:

- outperforming the daily compounded EONIA over the minimum recommended investment period for the unit,

has been amended and will now read:

- outperforming the daily compounded EONIA by 1.30% per annum over its minimum recommended investment period for the unit.
