

Function: Platform Support Officer

Team: Middle Office

Reports to: Head of Middle Office

Role purpose

H2O Asset Management is a global macro investment management company founded in August 2010 managing 13Bn€. H2O AM is based in London (H2O AM LLP), in Monaco (H2O Monaco), in Singapore (H2O AM Asia), and in Paris (H2O AM Europe) which form one global investment platform. H2O AM has been build around an experienced investment team with a long track record of managing global fixed income and global macro portfolios. This job is offered at the London office.

At H2O, the Middle office is responsible for ensuring the successful completion of front to back trade processing, settlement & reconciliation. The team also has responsibility for various reporting and regulatory requirements. As a Platform Support Officer you will have a strong focus on the systems we are using and on processes development in order to continue to meet the growing needs of the firm & our clients.

Main accountabilities

H2O is relying on SimCorp Dimension to handle its middle to back office operations. Through this role you will acquire the knowledge of a wide range of products and a global overview of the operation processes of an asset manager being also able to understand the technical side of them.

On a day-to-day basis you will be in charge of the troubleshooting of the platform and the support if the end users. You will also be in charge of data management for static and prices referential in order to make sure that the quality and the completeness of their integration.

This role also features a project side where you will be involved on the development of the platform adapting the processes to new regulation, to new requirements from our institutional clients or from internal departments.

A previous experience with SimCorp Dimension would be a plus but is not a prerequisite. This role is opened to newly- graduated student.
